address

**2355 Amaro Antônio Vieira Hwy, Itacorubi
Florianópolis, SC - Brazil**

date of birth

07/07/1988

Graphic designer working with UI development about 6 years. I have solid experience creating wireframes, high fidelity mockups and implementing HTML / CSS. Besides that I have strong visual design skills, including layout, color theory, typography, usability and recently I've started working with design systems, seeking to stay informed of the latest UI / UX techniques, tools, and patterns.

I'm used to work in multiple projects, acting in all steps of product development, from initial concept to implementation, work cooperatively to solve problems, communicate and collaborate effectively with developers and product owners

Specialties: UX Design. UI development using HTML5, CSS3, GIT. Software knowledge includes Sketch basics, Figma, InVision and Adobe Creative Suite (Illustrator, Photoshop, InDesign, XD).
